

# COLLECTION #Ermenegildo

**Intuitive, with a daring spirit.**

The most important thing for Ermenegildo is originality. Its contemporary style, in fact, perfectly blends with the desire not to move too far from tradition.

Its lines trace delicate and harmonious silhouettes which let everyone enjoy to the utmost each moment of relax spent with it.

His way of thinking has always been very clear:  
"Learn from your yesterday and use it in your today."
